Through my extensive advertising for the past more than twenty-five years, I enjoy by far the greatest numismatic market of any other similar firm. In the past five years alone I have spent in actual cash over two hundred thousand dollars for magazine advertising, creating new collectors by the hundreds, thereby giving me by far the largest numismatic market.

My sales are all carefully planned, extensively advertised and successfully conducted. In the past several years you have noticed that the greater preponderance of all real fine and important sales were held by me.

Write me for terms. They are no higher than elsewhere. Liberal amounts of cash advanced without interest.

It is to YOUR ADVANTAGE to Mail Your Bids Early!

To Avoid Misunderstanding Please Read These Terms of Sale Before Bidding

Positively no change from these terms made for anyone.

All bids are entered as received and lots distributed to the highest bidder without reserve. When two or more bids are the same, the first received gets the lot. When two or more unlimited bids on a certain lot are received, the first one received gets the lot at an advance of 5% over the highest bid.

When I receive your bids, I consider myself as your agent and buy the lot for you as much under your bids as the next highest bid will permit. I simply execute your bids for you as faithfully as if you had yourself been present at the sale.

I CHARGE NO COMMISSION FOR EXECUTING BIDS

Lots are sold as catalogued. No lot is broken under any circumstances. Bid by number of lot and at SO MUCH PER PIECE. If there are ten pieces in a lot and you want to offer \$1.00 for the lot, make your bid 10c.

I guarantee all coins and notes to be genuine unless otherwise stated in catalog. This guarantee holds good indefinitely. And my guarantee means something to you. Remember that there are thirty years of proven successful numismatic experience and ample financial responsibility back of this guarantee.

NOTICE TO NEW BIDDERS

Buying coins at auction sales is not the same as receiving coins on approval. The coins are bought for you on your order and you are of course expected to accept and pay promptly for them. Auction purchases are strictly net cash. Be careful in making your bids. Be sure that you bid for the lot you desire and at so much PER PIECE.

TERMS: The terms of auction sales are strictly cash. Parties unknown to me or those who have had no previous credit established, must send a deposit of at least 25% of their bids, **otherwise they will not be accepted**, as I cannot be expected to ship goods to parties whose good standing is not known to me.

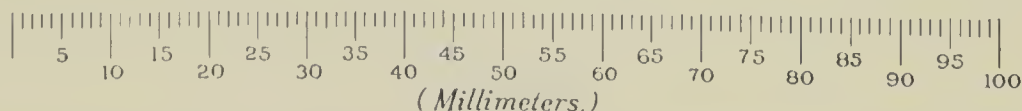

Remittance should be made promptly in any way most convenient to yourself.

A neatly printed list of prices of this sale, showing amounts realized for each lot, will be sent for only 50c, CASH WITH ORDER. This is surely the cheapest and best method to keep posted on the prevailing values of coins.

PLEASE SEND IN YOUR BIDS EARLY. All bids must be in on or before Tuesday, November 8, 1932.

If you have any coins that you want to sell either at auction or private sale, write me for terms.

The size of Coins and Medals in this Catalog is given by Millimeters.

BID SHEET

Yours very truly,

Please do not forget to sign your name and address.

BIDS ARE AT SO MUCH PER EACH PIECE

[illegible]

Parties unknown to me and having no previous credit established at my Sales will please send a deposit with bids. Otherwise the bids will not be accepted.

A NUMISMATIC and METALLURGIC COLLECTION

The following is the most unusual collection that I have ever catalogued. It is a numismatic collection formed to illustrate the various metals out of which coins have been made. This collection was formed by one of the greatest metallurgic and precious stone experts in the world. This identical collection together with his collection of precious stones, was exhibited at the World's Fair in Chicago in 1892. His entire collection was purchased by the Field Museum of Natural History. The Collection of precious stones has been and is now on exhibit at that institution. But as the Field Museum is devoted exclusively to natural history, they decided to dispose of these coins.

Am cataloging them just as I received them. No attempt has been made to assort them. Each coin has its original display tab. It is well for you to watch the following descriptions carefully, as there are some most interesting as well as very rare pieces "sandwiched in" with ordinary coins, but all are of historic and numismatic interest.

**The C. E. BRIGGS COLLECTION of
the LESHER REFERENDUM "DOLLARS".**

The most complete set of these interesting coins ever before offered at auction. The complete history, together with full description of all varieties, was prepared by Mr. Farran Zerbe, published in the American Journal of Numismatics. The article was re-printed in MEHL'S NUMISMATIC MONTHLY in the May, 1919, issue. I have a few copies of this issue which I will supply as long as they last at \$1.00 per copy.

The following is the first paragraph of the article. It gives a brief but informative description of these coins.

"Octagonal silver pieces dated 1900 and 1901. Made by Joseph Lesher of Victor, Colorado, for commercial use, and classed as coins by the maker, have been given the name of LESHERS. As a later private issue of silver for exchange purposes, not depending upon necessity or demand; the idea and product of an advocate of free coinage of silver; issued in defiance of Government statute; and for a time performing in a limited way the service of money in central Colorado, these coins contribute an extraordinary and interesting addition to American Numismatics."

(The numbers mentioned in the following descriptions of the coins refer to Mr. Zerbe's list of them as originally published.)

Mr. Briggs made a specialty of the Lesher Dollars. He spared no effort, time nor money in completing this collection. He made several special trips to Colorado in order to obtain a single specimen.

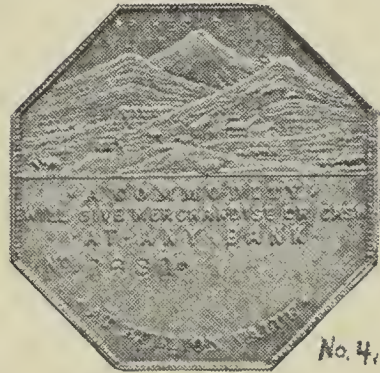

- 435 1900 First issue and first variety of the Lesher Dollar. Obverse, JOS. LESHERS REFERENDUM SOUVENIR. ONE OZ. OF COIN SILVER. PRICE 1.25 MFGD. VICTOR COLO. 1900. Mr. Zerbe in his excellent article on these interesting pieces, referring to this variety, states as follows: "Mr. Leshner says but five pieces, die trials, were struck and the Bank idea was abandoned. * * * * Of this, the rarest type of the series, three have been located: Briggs, (this identical specimen) No. 1563, Brenner No. 1620 and Zerbe No. 1631." From the Will of
Edmond de Goncourt

(Translated)

My wish is that my Drawings, my Prints, my Curiosities, my Books—in a word, these things of art which have been the joy of my life—shall not be consigned to the cold tomb of a museum, and subjected to the stupid glance of the careless passer-by; but I require that they shall all be dispersed under the hammer of the Auctioneer, so that the pleasure which the acquiring of each one of them has given me shall be given again, in each case, to some inheritor of my own tastes.
